About This Collection

The gallery title reads sbc 0058, and these photos were captured in the бортжурнале of a Mercedes-Benz E-class, specifically the W211 generation, where the w221 and w211 chassis share the same класс. These фото show the brake hydraulic unit up close, highlighting the SBC насос and its integration into the W211's braking assembly. The блок SBC, part number 009 431 25 12, was installed after the previous unit failed, because the system needed a reliable replacement. Inside, a новые SBC блок sits beside the 0265960029 насос, the original A0044314212 pump that controls the ABS system on this мерседес е класса. Пришло время установить this new блок, as the old один gave out after years of service. View the full gallery via the link above.
