Step-by-Step: How to Change Your Flight

When you decide to make a change, the first step is always to locate your record locator (a 6-character code) and dial ☎+1(888) 727 0205. Have your passport and credit card ready. When the agent answers, clearly state your current flight number and the new date or time you wish to travel. They will check the availability and quote you any fare difference or change fees applicable to your specific ticket type.

Once you agree to the new itinerary, the agent at ☎+1(888) 727 0205 will process the exchange. It is vital to stay on the line until they confirm that the ticket has been "reissued" and you receive a new email confirmation. A flight that is merely "reserved" but not "ticketed" is not valid for travel, so verbal confirmation from the agent is key to a successful change.

Understanding Fees and Fare Differences

Many passengers are confused by fees, but a quick conversation at ☎+1(888) 727 0205 can clarify everything. While American Airlines has eliminated change fees for most main cabin

international tickets originating in the Americas, you are still responsible for the "fare difference." This means if your new flight is more expensive than the original, you must pay the gap.

However, if your new flight is cheaper, the agent at ☎+1(888) 727 0205 can often issue you a travel credit for the difference. This credit typically lasts for one year from the original booking date. Be sure to ask the agent for the specific expiration date and the terms of use for your credit so you don't lose that value.

Frequently Asked Questions (FAQ)

Can I change my Basic Economy international ticket?

Generally, Basic Economy tickets are non-changeable, but you should call ☎+1(888) 727 0205 to check for exceptions. Sometimes, during severe weather events or specific waivers, restrictions are lifted. It never hurts to ask an agent if there is a flex-policy in place for your specific route.

How long before my flight can I make a change?

You can change your flight up until the departure time, but calling ☎+1(888) 727 0205 at least 24 hours in advance is safer. If you wait until after the flight departs, you are considered a "no-show," and your ticket usually loses all value. Always notify the airline before the plane leaves the gate.

Does the phone number work for award travel changes?

Yes, if you booked with miles, you can dial ☎+1(888) 727 0205 to change your award ticket. Award inventory is different from cash inventory, so an agent is very helpful in finding open "reward seats" that might not be visible on third-party sites or standard searches.
