What is a Walmart eGift Card and How Does It Work?

A **walmart egift card** is the digital version of the traditional plastic card. Instead of carrying a physical card in your wallet, you receive a code via email or text. You can use this **walmart gift card online** at Walmart.com or scan it from your mobile device at a checkout register in physical stores. It offers the same flexibility as cash but with the added security and convenience of digital storage.

Many shoppers also confuse this with a **walmart visa gift card**. While a standard Walmart gift card is a closed-loop card (meaning it only works at Walmart and Sam's Club), the Visa version can be used anywhere Visa Debit cards are accepted. However, for most sweepstakes entrants and deal hunters, the standard store credit is the most sought-after prize due to its versatility for groceries and household goods.
